ABOUT ME

Pro-active, multi-discipline designer currently based in Suffolk. Seeking an opportunity somewhere new and exciting to gain experience in a fast paced, creative environment, specifically interested in roles in design and marketing. Adaptable individual who is eager to expand upon her skills and experiences. As a creative I thrive under pressure and take pride in producing projects that are of high quality and show impeccable attention to detail.

WORK EXPERIENCE

Student Achievement Mentor

Lowestoft Sixth Form College | 2021 - Present

My role as a SAM involves informing students aged 16-18 about life skills and higher education through weekly tutorials. I provide support to the students applying to university by providing feedback on personal statements and helping them with their UCAS applications. The experience I have gained from this role has been invaluable. Not only have I gained confidence with **public speaking**, the role has required **planning and research** to ensure every lesson is informative. I have also dealt with challenging and sensitive situations along with gaining technical skills using **Microsoft Word, Excel, PowerPoint and Teams**.

Art, Photography & Graphics Technician

Lowestoft Sixth Form College | 2020 - Present

In my technician role I provide 1-1 tutorials and **group discussions** to the creative students studying A-Level Art, Photography or Graphics. I create marketing materials for the college using **Adobe Illustrator, InDesign and Photoshop** and I share my own knowledge to create resources for the students on topics such as **book binding, building a portfolio, and creating a website**. It is my responsibility to order materials and maintain the equipment in the department. This role has required **strong communication** with my colleagues and the ability to **work independently and as part of a team**.

Studio Assistant

Gallery Thea Southwold | 2021

Being a studio assistant was an inspiring role for me. I painted the artist's illustrations onto ceramics and was responsible for **packaging and processing online orders**. This role gave me the knowledge needed for running an independent business and the **ability to adapt** to a creative style that wasn't my own. From this experience I started my own online shop.

Duty Manager

Two Magpies Bakery Southwold | 2016 - 2021

Working here has taught me how to **communicate with the public**, and **deal with complaints**. I have experienced the responsibilities involved with being a duty manager and how to be **professional** in all aspects of my job. I had responsibilities of **cash handling** and arranging the **window display**.
